### Questions:

Email to [Aging.OCCS@illinois.gov](mailto:Aging.OCCS@illinois.gov) with the subject “SCM Policy.”

## PURPOSE

This policy advises Care Coordination Units (CCUs) and Community Care Program (CCP) providers of Service Cost Maximums (SCMs) in CCP.

## POLICY

SCMs refer to the highest authorized allocation available for services per month calculated based upon the Determination of Need (DON) assessment tool score. CCUs shall utilize the SCMs in this policy when completing assessments/reassessments and authorizing services in the Person-Centered Plan of Care (PCPOC).

## PROCEDURES

### CCU Responsibilities

CCUs shall work with the participant/authorized representative to develop a PCPOC for all eligible participants. Services authorized in the PCPOC must be within the SCMs for the participant's DON score. A CCU shall not adjust a DON score to accommodate SCM thresholds. If a participant has multiple services, the CCU shall add the service maximum for each service to determine if the participant is within the new SCM.

If the participant receives multiple services, reference the table below to identify which SCM to utilize:

[Note: Senior Companion Program (SCP) cannot be a stand-alone service; it must be authorized in conjunction with one of the four (4) core CCP services: In-Home, (INH), Adult Day (ADS), Emergency Home Response (EHRS), or Automated Medication Dispenser (AMD).]

If receiving these services	Use this Monthly Service Cost Maximum
ADS	Adult Day Service SCM
ADS & any other service (INH, EHRS, AMD, SCP)	Adult Day Service SCM
INH	In-Home Service SCM
INH &/or EHRS &/or AMD	In-Home Service SCM
SCP with other CCP core service (not including ADS)	Senior Companion Program SCM
EHRS	In-Home Service SCM
AMD	In-Home Service SCM

### Companion Plans of Care

If more than one person in the same home is receiving any waiver services through IDoA, Illinois Department of Human Services (IDHS), or a Managed Care Organization (MCO), Companion Plans of Care are required to increase efficiency, reduce duplicative services and save the participants' service costs.

### Provider Responsibilities

CCP providers shall implement Participant (Client) Agreements and PCPOCs received for any participant on the effective date of the PCPOC.
